Perfect FOODS

PERFECT SPICE - PEEFCET LIFE

Our Expertise

PFI specializes in adding commercial value to Pakistan grown agro-produce and have its collection and processing facilities almost in all growing regions of the Country. In addition to offering fresh quality processed spices and herbs, we develop our in-house proprietary dry blends also available for wholesale to all food and allied businesses. Our clients also include small scale to large scale national and multinational Food and Snack manufacturers and wholesale suppliers of food ingredients and savory blends. We serve as a major source of ingredients and custom blends for restaurants and food manufacturing industries as first stop shop for wholesalers, retailers, and online consumers.

Our Mission

The key focus is on Quality, Competitive Pricing & Customer satisfaction based on trust to build lasting business relations. Our business approach is simple! Our systems, processes and flexible policies ensure our customers to get the right ingredient-food solutions meeting their expectations. At PFI it is always a continuous effort to raise the bar in today's highly competitive food industry. We believe that the sky is our limit.

Processing Range

Our packaging range is from 25 Grams to 40 KG.

Our Team

- Food Technologists
- Microbiologist
- Chemists
- Horticulturists
- Engineers

Our team of expert's works closely with farmers to enhance quality & Safety based productivity. With vast years of experience in processing of Dehydrated Products, we make sure to maintain the equal quality and taste throughout the use.

To make our system more efficient we chose the strategic location for our processing units. Our processing unit is located in the Punjab provinces of Pakistan, right in the center of the vegetable, fruit and spice growing areas. This ensures the best & fresh quality raw materials yielding the lower-cost of the finished products.
